HANDBOOK OF LEGAL TERMS

INTRODUCTION

The Michigan Judicial Institute (MJJI) was created by the Michigan Supreme Court as a part of the fulfillment of its Constitutional duty to assure that justice throughout the court system is administered fairly, efficiently, and with a high degree of professional excellence. The Institute is dedicated to fostering this professional excellence through a broad range of continuing education programs and services for all persons striving to administer justice in the courts of Michigan.

The *Handbook of Legal Terms* is produced by the Michigan Judicial Institute to meet the needs of those employees of the court system who are not legally trained, yet work with the law and court procedures. Since this Handbook is designed for non-legal personnel, the definitions are written in plain English rather than in complicated legal terms.

It is the product of hundreds of interviews and the analysis of survey questionnaires completed by many court employees in 1976, and has been periodically updated with the assistance of judges, SCAO staff and other court officials. It has been prepared at the request of judges, court administrators and other court supervisory personnel.

The Michigan Judicial Institute wishes to thank the countless court employees who participated in the preparation of this booklet, and hopes that the Handbook will be a useful reference.

This project was initially supported by a grant awarded by the Michigan Office of Criminal Justice Programs under the Crime Control Act of 1976. It was updated and revised prior to the third printing in 1989. Additional revisions were made prior to the seventh printing.
